

the new quintet

PRESS KIT

who we are

Made up of up-and-coming musicians from the East Coast, The New Quintet combines some of the rawest and youngest talent from the Mid-Atlantic and Southern regions to create a new sound which harkens back to the sonic vision of Hard Bop, combined with their own unique approach.

our music

While projecting a traditional tone, The New Quintet still looks to bring a modern sound into the jazz landscape while also harkening back to the sounds of the soul jazz and hard bop eras of the 1950s and 60s.

our vision

We are striving to create a new, young, and vibrant group of guys that bring stage presence and a round sound to your venue!
